

Maslow:
Surviving to thriving

Motivation fuels us all; driving us to achieve our goals and realize our potential. In 1943, Abraham Maslow, an American psychologist, proposed the theory of the hierarchy of needs. He believed that all people, regardless of economic status or cultural background, seek to fulfill their basic needs before moving on to their next level of needs.

FareStart:
Great food, better lives

FareStart has been helping people transform their lives through food for over 25 years—one person, one job, one community at a time—providing real solutions to poverty, homelessness and hunger through foodservice training and job placement programs.

Maslow's:
Taking it to the next level

Maslow's is the next big step for FareStart to make a greater impact. This restaurant is part of a paid apprenticeship program designed to help individuals take defining strides in their lives and careers in order to get securely out of poverty and move up to a living wage, on their journey to prosperity.
